DETAILED ACTION

Status of the Claims

1. This action is in response to the restriction election filed on December 16, 2005.

Claims 6-7 are pending. Claims 1-5 and 8 are canceled.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 6-7 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

For a claimed invention to be statutory, the claimed invention must produce a useful, concrete, and tangible result. As to claims 6-7, the claimed invention does not meet this requirement because the claims merely show the monetary amount is transmitted from the user to the shop, and then transferred back to the user. Nothing useful, concrete, and tangible is produced during the transaction and/or at the end of the transaction.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 6-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 6-7 merely show the monetary amount is transmitted from the user to the shop, and then transferred back to the user. Nothing useful, concrete, and tangible is produced during the transaction and/or at the end of the transaction. It is not clear what overcome the applicant is trying to accomplish.

Claim 6 recites the limitation "said user device encrypting a monetary amount to be transferred...". This recitation directs to the manner in which a claimed method is intended to be used does not distinguish the claimed method from the prior art (see MPEP 2114; *In re Collier*, 158 USPQ 266).

Inquire

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary Cheung whose telephone number is (571)-272-6705. The examiner can normally be reached on Monday – Thursday from 10:00 AM to 7:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Trammell, can be reached on (571) 272-6712.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
